## Voices

### Agriculture

Leader,  
Agricultural  
cooperative

"Since the completion of the project, our association has been collecting agricultural products and distributing them to the market every day. It has been contributing to better livelihoods. Thank you for the support of the KUSANONE grant."

### Water

Local resident

"My family doesn't need to spend any money on water anymore. We just come to collect the water from the water distribution point that is close to my house. I can save a lot of money for my family. The water that we use every day is very clean and safe for our daily consumption."

### Social Welfare

"Being able to frequently follow-up children with disabilities is very important. Thanks to the KUSANONE grant for providing a mobile clinic van, we can now load more medical equipment and staff and see clients who live in the same area at once regardless of rain."

Safe Haven (NGO)

## 9 Projects out of 56 Projects from 2019 to 2021 in Cambodia

## Voices

### Health

Director,  
Provincial Health Department

"This building really helps to promote health care delivery in terms of equitable services and quality of care in a remote area of Preah Vihear province."

### Education

Student

"I am very happy to be sitting in the new school building, with enough facilities and a reasonable number of students, which is a grant from the KUSANONE Project. I receive more attention from teachers who made our learning better than before."

### Road

"Thanks to the KUSANONE project for improving the road for people in Bos Morn and Pong Teuk communes, which facilitates travel in both dry and rainy seasons and saves a lot of time for students, workers, and farmers in their travels."
