

Participation in the Siem Reap Forest Fire Management Project
Steering Committee Meeting by Director YONEZAWA

August 2026

On August 26, Mr. YONEZAWA Atsushi, Director of the Consular Office of Japan in Siem Reap, attended the first Steering Committee Meeting of the ITTO (International Tropical Timber Organization) Project “Building Resilience Capacity on Community-based Forest Fire Management in Siem Reap Province”. He also participated in a tree planting event at the Khnach Koul Community Forest in Varin district, which is one of the project sites.

This project, supported by the Government of Japan, aims not only to enhance prevention and suppression of forest fire but also to improve local livelihoods through sustainable practices.
